

About AstraGene

AstraGene is UAE's first Molecular Diagnostics Manufacturing company located in Dubai UAE. Our vision is to emerge as a leading manufacturer and marketer of in-vitro diagnostic reagents, kits and instruments both nationally and internationally. We make lab tests easy, with at home testing kits for a wide variety of tests. We have established collaborations across the globe for collaboration and contract manufacturing.

AstraGene inaugurated its operations in 2020 and has created several test kits using sustainable and innovative methods. Located at Dubai Science Park, AstraGene, is rapidly expanding and providing valuable solutions in the fields of genomics, proteomics and therapeutics.
